THE memorial of the Tennessee legislature which we print is a just tribute to the worth, learning and high character of Judge Henry G. Smith. We sincerely trust he will receive the appointment which he desires and and merits by reason of his great legal attainments, his exalted personal character and his steadfast devotion to what he deems right. Differing in political opinions with the distinguished gentleman for a quarter of a century, as we have, we have learned to know him, and in giving our indorsement of his claims for the supreme beach of the United States, we are confident that we but United States, we are confident that we but re-echo the sentiments of the Republicans and many of the leading Democrats of Arkansas, Mississippi and Tennessee. As a lawyer and citizen Judge Smith stands in Memphis without a superior. His life is an example of high integrity, purity of character, devotion to duty and steadfast adherence to principle. Inauguration Ceremonies. Washington, March 5.—At ten o'clock day President Hayes, accompanied by his son and Senator Sherman, left the residence of the senator for the executive mansion, where he was met and pordially greeted by Ex-President Grant, who was waiting to escort the President to the capitol. There were also present the Vice-President-elect and the commissioners of the district of Columbia. The party adjourned to the blue parlor, and passed some time in conversation. In the meantime the grand inaugural pageant that had gathered at Washington circle, in the west end of the city, about a mile distant from the White House, had started with their flying banners and bands of music. Lieutenant-Colonel Grant, in field uniform, and Colonel Amos Webster, of the mulitia of the District, headed the procession. with the following in carriages: The President and Ex-President and Vice-President elect, with citizens on foot on either side of the carriages. Then came the civil part of the procession, in three divisions. The first under the command of Colonel Timothy Tubey, embracing citizen officials on horse back and on foot. The display was impos islature and the election of two United States ing. After these came the fifth division, marshaled by Arthur Shepherd. His appearance at the front of the platform was greeted with shouts of applause from the people, who stood closely packed, both in front of and behind the long lines of military that extended from one end of the capitol grounds to the other. The following petition has been extensively signed by prominent officials and citizens, and will be presented to the President to-day:

To the President:

The resignation of Hon. David Davis having occasioned a vacancy on the bench of the supreme court of the United States, we respectfully recommend Hon. Henry G. Smith, of Memphis, as a person suitable to fill that responsible and important office. Judge Smith is a gentleman of culture and character, and has for many years enjoyed a large practice, and occupied a high position at the bar of Tennessee. His term of service upon the supreme court of our State, showed that in addition to eminent legal qualifications, he possesses the requisites of patience, diligence, firmness and courtesy—qualities indispensably necessary for the proper exercise of judicial functions. As an adjunct, more importhat, certainly, than any measure of qualification, we add that his character in every point bearing upon morality, stands before the world unchallenged and unquestioned. His appointment would command universal approbation in Tennessee, and should he be invested with that high office his ability on the bench, in our epinion, would demonstrate To the President:

I think it more likely that, under cover of a pretended process of law from courts not recognized as having any legal standing, some effort will be made to arrest the officers of the government or to serve a process on them, and to enforce that service by a posse of the White league or the Nicholls militia as police, as they are now termed. I believe the ultimate recognition of the Republican State government is assured. I attach no importance to the reported efforts of Pinchback, West, George Sheridan, Sloaneker, George Carter and others to prevent it.
The unloading of these men is, in my judgment, a positive benefit to the Republican ment, a positive benefit to the Republican party of the State. It enables us to attach firmly to our standard such old citizens as Attorney-General Hunt, George Williamson, minister to Central America; A. H. The sloughing off of the so-called Republicans who now have allied themcalled Republicans who now have allied them-selves to the opposition is a positive benefit to the State.
